- **GOAL: 0 High Priority violations**
- **List violations that do not make sense**

The screenshot shows the Jenkins web interface. At the top, there's a header with the Jenkins logo, a search bar, and user information (ac, log out). Below the header, the breadcrumb navigation shows 'Jenkins > EseT3 > #13'. On the left sidebar, there are links for 'Back to Project', 'Status', 'Changes', 'Console Output', 'Edit Build Information', 'Delete Build', 'Git Build Data', 'No Tags', 'FindBugs Warnings', 'Redeploy Artifacts', 'See Fingerprints', and 'Previous Build'. The main content area displays 'Build #13 (Nov 16, 2015 2:03:27 PM)' with a green status icon. To the right, it says 'Started 1 hr 33 min ago' and 'Took 1 min 22 sec'. Below this, there's a section for 'Changes' with a list item '1. Update pom.xml (detail)'. A section for 'Started by user ac' is also present. The 'Revision' section shows '511170e92f9034ad44238cec38adda6efa98592d' and 'origin/master'. A section for 'FindBugs' is highlighted with a black box, showing 'FindBugs: 16 warnings from one analysis.' and '16 new warnings'. Below this, the 'Module Builds' section shows a single entry 'tutoris_bernae 1 min 16 sec'.
